To Whom It May concern

I would like to recommend Another Room - Grant made & had delivered a staff amenities block for our nursery In May 2009 that met all our expectations, arrived on time, and was joined on site with a minimum of fuss. His pre construction discussions proved how obliging he was and how determined he was to get the right solution for our needs. I would have no hesitation in recommending Another Room buildings as versatile solutions to a multiplicity of building requirements.
